EXHIBITOR RULES

1. Conduct Between Exhibitors
 - a. Exhibitors agree that they will not disrupt the show by harassing other exhibitors, or by disrupting other exhibitors' ability to conduct normal business activity at the show. In its sole discretion, McIntosh may physically remove from the exhibitor's booth space any person who is engaged in threatening, disruptive, or offensive behavior.
2. Non-Current Product/Boats
 - a. Boat exhibitors may display up to 20% of new and unused previous model year boats in their display. A new boat is defined as a boat that has not been registered with the State.
3. Installation
 - a. Specific instructions regarding loading in/out (i.e., dates, times, and directions, etc.) will be sent to each exhibitor, and must be strictly observed. Exhibitors will be billed for extra rigging services required because of delays caused by unprepared exhibits, including carpet installation, lack of appropriate cradling equipment, etc.; lateness; or any special/unusual handling of boats or equipment. Late exhibitors arriving after their scheduled installation time can be relocated to any location specified by McIntosh or, if no alternative is available, may forfeit their show participation rights.
 - b. No signs, walls, product, or any part of a display shall be set up so as to block off or otherwise interfere with the view of any other display. Exhibits are limited to the space provided in the contract. Product, personnel and/or display materials may not extend into the aisles or adjoining space (including trailer tongues, wheels, stairs, stern drives, display/literature racks, etc.)
 - c. No signs may be placed on columns or walls except within exhibitor's space. No nails or screws may be driven into the floor. Exhibitors are responsible for filling holes from tent stakes or from other structures not provided by McIntosh, for removing tape from floors, and for removing carpet, including whatever is used to secure it.
 - d. No fuel may be stored in containers, boats, RV's, or authorized vehicles. All gas tanks must have locking gas caps or be taped closed. Batteries must be disconnected from ignition systems.
